REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: Although it is known in the prior art to pelletize fluoropolymers, applicants have shown that doing so introduces the undesirable impurities that applicants' invention avoids. The teaching of low impurity fluoropolymers that have not been made into pellets, therefore, does not render prima facie obvious the pelletizing of these polymers since that would introduce the undesirable impurities. Applicants' claims are, therefore, both novel and unobvious over the closest prior art as cited.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
